

MATRIX CHANDELIER

Inspired by the sparkling points of light in the Milky Way, the Matrix Chandelier is designed in a modular structure, allowing the freedom to create site specific lights and sizes.

For instance, the Matrix Chandelier can be extended lengthways to create a latticework of light over a long dining table, to hang in a series of repeated individual modules, or assembled as a major constellation of interlinked modules as a centrepiece decorative light.

Dimensions of 1 module: L.83cm x w.34cm

Materials: Hand brushed brass with Acrylic diffusers

Finishes: Brushed brass, Dark bronze, Shadow chrome

Made in Britain

Designer: Martin Huxford
